MMR_0579 Blumensaadt, Mike

PCR members Frank Markovich MMR and Mike Blumensaadt MMR recently completed a 4 1/2 foot x 12 foot HO scale exhibition layout to be installed in the new NMRA Magic of Scale Model Railroading exhibit at the California State Railroad Museum in Sacramento. Opening in fall 2019, the pro-designed exhibit features fine-scale complete layouts, hobby history, a wall of trains and a wall of parts showing how modeling is accomplished.

Frank and Mike's work shows a layout that any visitor could build and includes both finished, highly detailed scenes and unfinished roadbed, landforms and benchwork. It's ruggedly built for continuous public operation and was funded 100% by donated funds, not member dues. We see it here in the shop awaiting shipment to the museum. Great job guys!

Mike Blumensaadt has written many articles in N Scale Railroading and N Scale magazine.
